

Summary Report

- Available at any time
- Supplies information that was entered
- PDF format
- Report labeled draft until after the information is submitted

16

Disclaimer

Information shown on screens for this tutorial was taken from test data developed for the air emission reporting program. Device, process, and other information from existing facilities were used for illustrative purposes only. Existing facility data was used to show typical usage of screens in the program. None of the information presented in the following screens should be viewed as accurate information.

Air Summary Report

You can generate a summary report of your air data at any time during the process. The data does not have to be complete or error free.
